## Summary

I'm not just a code-slinging developer, I'm a pixel alchemist, transforming designs into living, breathing online experiences. With Over Two years of conjuring front-end magic, I bring websites and web apps to life with a potent blend of technical prowess and artistic flair.

My canvas? HTML, CSS, and JavaScript, the tools I wield to sculpt interactive interfaces that are as visually captivating as they are intuitively navigable. I obsess over pixel-perfect layouts, meticulously crafting user journeys that are smooth and seamless across devices. But my artistry goes beyond the surface. I breathe life into static designs with dynamic elements, weaving interactivity that engages users and tells stories.

## Education

**CERTIFICATION IN SOFTWARE DEVELOPMENT | MAY 2022 | HIIT INSTITUTE**

- Major: Front-End Development
- Related coursework: Front-end Engineer

## Skills & Abilities

- HTML
- CSS
- JAVASCRIPT
- REACTJS
- BOOTSTRAP
- TAILWIND CSS
- GIT
- TEAMWORK
- CREATIVITY
- ADAPTIBILITY
- TIME MANAGEMENT
- ATTENTION TO DETAILS

## **Experience**

### **FRONT END DEVELOPER INTERN | QIT INNOVATIVE SOLUTIONS | SEPTEMBER 2023 - JANUARY 2024**

Spearheaded the development and maintenance of dynamic web applications, utilizing ReactJS, JavaScript, Typescript, and CSS, resulting in a 20% improvement in user engagement and a 15% increase in application performance.

Maintained code quality by adhering to best practices, resulting in a 15% reduction in post-launch bugs and an overall improvement in software robustness. Implemented a version control system using Git, streamlining source code changes and improving collaboration efficiency, leading to a 20% reduction in development time. Actively contributed to open-source projects, enhancing collaborative efforts, and utilizing various tools, resulting in a 15% increase in project success rates.

### **LEAD FRONTEND DEVELOPER | CMUL TECH TEAM | OCTOBER 2023 - PRESENT**

- Developed front-end user interfaces for several complex web applications with HTML, CSS, and JavaScript.
- Utilized React frameworks to create interactive, responsive, and user-friendly web designs.
- Collaborated with web designers and back-end developers to ensure web applications met customer requirements.
- Implemented user authentication, API integration, and third-party payment systems.
- Developed and maintained reusable code libraries, while keeping track of changes and their effects on existing functionality.
